

CLIENT & ORGANIZATION
Stuart & Co • Glasgow, Scotland, UK (Construction/Manufacturing)

SUPPORTED TELEPHONY STACK
Make.com • Retell AI • Twilio UK • Wappi WhatsApp

SYSTEMS ENGINEERING PROFILE
12+ Years Enterprise Systems • Lead Eng Legiit (\$1M ARR)

Role Purpose: Provide high-reliability part-time technical support, bug fixing, prompt tuning, and carrier resilience for Stuart & Co's AI answering system. Built to guarantee zero dropped calls, eliminate Wappi 504 timeouts via Twilio SMS failover, and ensure full Scottish dialect entity extraction.

DOMAIN AREA	CORE TECHNICAL RESPONSIBILITIES & BUG FIXING FOCUS	RESOLUTION SLA	COVERAGE
WORKING PROOF	Interactive Telephony Cockpit & Diagnostics — Live verified demo at callguard-ops.vercel.app with call traces, Retell tuning bench, Make canvas & Wappi tester.	Delivered Live	Phase 0 Gift
MAKE.COM	Webhook Ingestion & DLQ Error Handling — Fix webhook timeouts, manage 200 OK fast-acknowledgments, dead-letter queue retries, and 3-branch intent routing.	Same-Day (<4h)	Active Support
RETELL AI	Voice Agent Tuning & Dialect Calibration — Prompt optimization for Glaswegian trade vocabulary ("sparky", "joiner", "flashing") and sub-500ms voice latency.	Same-Day (<4h)	Active Support
WAPPI WHATSAPP	Multi-Device Gateway & Reconnects — Stabilize WhatsApp session instances, monitor heartbeat pings, and format post-call recap message payloads.	Priority (<2h)	Active Support
TWILIO CARRIER	SIP Trunking & Sub-500ms SMS Fallback — Bridge Glasgow DDI (+44 141) media streams, E.164 regex phone sanitization, and automatic SMS failover when Wappi drops.	Critical (<1h)	Active Support

OPTION A: PART-TIME RETAINER (RECOMMENDED)
10 Hours / Week Minimum Commitment (\$500.00 / week)

- Priority <2 hour emergency response for any dropped calls or webhook errors.
- Continuous prompt tuning, trade dictionary updates, and Make.com scenario maintenance.
- Unused hours roll over bi-weekly; billed transparently via Upwork hourly tracker.

\$50.00 / hr

OPTION B: PURE ADHOC (PAY-AS-YOU-GO)
Zero Weekly Minimum Commitment (Billed to the exact minute)

- 100% on-demand: call upon Shakil only when a bug or carrier outage occurs.
- Can use for 1 hour, 30 minutes, or 5 hours as needed with zero retainers.
- Standard 24-hour turnaround on non-emergency bug fixes.

\$80.00 / hr

MULTI-VENDOR ARCHITECTURE & RELIABILITY SLA

99.94% Uptime Target

Twilio UK SIP Trunk
Glasgow DDI (+44 141) bridge to Retell SIP URI (<35ms latency).

Retell Voice Agent
ElevenLabs Turbo v2 Scottish model, sub-500ms voice turnaround.

Make.com Scenarios
DLQ exponential backoff retry; 0 dropped webhooks on network blips.

Wappi WhatsApp + SMS
WhatsApp dispatch with 450ms automatic failover to Twilio SMS.
